TERMS OF REFERENCE Country Coordinator - Bangladesh

1. Background

RIMES is implementing the Climate Adaptation and Resilience for South Asia (CARE) project from 2020-2025, with support from the World Bank. The project aims to contribute to translating into actions the commitment made by South Asian countries, at the 16th Summit of the South Asian Association for Regional Cooperation (SAARC), to strengthen climate resilience. With objective to create an enabling environment for climate-resilient policies and investments across South Asia, the project strives for the following, in select sectors:

- Increased access to regional climate data and analytics for climate-informed decision-making;
- National-level decision-making and planning that are better climate risk-informed;
- Regional climate resilience guidelines incorporated into national standards;
- Sectoral investments supported to include climate risks and resilient design; and
- Institutional capacities strengthened to undertake climate-informed policies and planning.

The project has three components:

- 1) Promoting evidence-based climate-smart decision-making, to enhance access to data required for risk-informed planning and investments.
- 2) Enabling climate-resilient policies and standards for development, to enhance transformation of policies and capacities for climate resilience and adaptation across South Asia; and
- 3) Project management and implementation support.

2. Objective

The Country Coordinator - Bangladesh, reporting to the Project Director, through the Country Lead – Bangladesh, is responsible for coordination and general supervision of in-country activities under Components 1 and 3.

3. Scope of Work

The Country Coordinator - Bangladesh shall:

- a) Coordinate with project partners and stakeholder ministries/agencies for collaboration on and inputs to project activities;
- b) Lead/ support stakeholder mapping, user need assessments, user feedback surveys, and project impact assessments;
- c) Support data collection for the development of the Regional Resilience Data and Analytics Services (RDAS), and Decision Support Systems (DSSs) and data portals for select sectors;
- d) Support and supervise the work of national consultants, as needed;
- e) Support the deployment of DSSs and data portals, and interact with host agencies for the sustained operation and management of these DSSs and data portals;
- f) Document monthly progress of in-country activities, including implementation challenges, solutions undertaken, lessons learned, and plans forward;
- g) Provide data/information for monitoring and evaluation of project progress against targets and performance indicators;

- h) Contribute to the documentation and communication of project accomplishments, good practices, and lessons learned;
- i) Support external project evaluations; and
- j) Perform any other relevant duties as required.

4. Qualifications

Knowledge

- Master's degree in international development, environmental management, hydrology, or related field

Experience

- At least 5 years of experience in implementing development projects
- Demonstrated experience in coordinating work with different stakeholders at various levels

Skills and abilities

- Demonstrable leadership abilities
- Ability to network, coordinate, and cooperate with partners, government authorities, and other stakeholders, and build strong mutual relationships
- Proven ability to strategize, plan, and organize work, and monitor activities and budget
- Demonstrated applied research skills
- English proficiency in communication, presentation, and report writing

Personal qualities

- Self-motivated, with ability to prioritize work, meet deadlines, and manage changing priorities
- Flexibility and ability to work hard independently and in a team
- Takes ownership of all responsibilities of the position
- Excellent work ethic

5. Contract Duration

The contract will be for 1 year subject to a 6-month probationary period, and annual performance review.
